panamericana

CONTENTS

Preface	11
Plenary lectures	
Thyroid hormone receptors and action	13
<i>L. J. De Groot and H. Nakamura</i>	
Observations in support of the hypothesis that thyroid hormones act at the level of the cellular plasma membranes	33
<i>S. H. Ingbar and J. Segal</i>	
Multiple forms of cyclic nucleotide phosphodiesterases in the thyroid gland	42
<i>C. Erneux, D. Couchie, F. Miot and J. E. Dumont</i>	
Reflections on a visit to Mendoza	54
<i>J. B. Stanbury</i>	
Symposia	
Relationships between structure and biologic activity of the thyroid hormones	60
<i>V. Cody</i>	
Thyroid autoregulation	75
<i>G. J. Juvenal, D. L. Kleiman de Pisarev, G. D. Chazenbalk and M. A. Pisarev</i>	
Changes in the plasma concentrations of TSH and thyroid hormones during childhood and adolescence	79
<i>A. Parra, S. Villalpando, E. Junco, B. Urquieta, S. Alatorre and G. García-Bulnes</i>	
Studies on thyroid function in early puerperium in iodine deficient subjects	88
<i>G. Pineda, C. Ibáñez and J. Tisne</i>	
Disorders of the thyroid gland during pregnancy and in the post-partum period	98
<i>J. H. Mestman</i>	
Inborn errors of thyroid hormonogenesis	110
<i>B. E. Gluzman and H. Niepomniszcze</i>	

Effects of diabetes on pituitary-thyroid axis	123
<i>R. J. Boudo, E. R. Ulloa and A. A. Zamirnovich</i>	
Thyroid gland and pancreatic function	129
<i>A. Renauld</i>	
Metabolic and ultrastructural effects of hypothyroidism upon endocrine pancreas	139
<i>J. J. Gagliardino, A. M. Cortizo, M. A. Pisarev, G. D. Chazenbalk, C. L. Gómez Dum and E. E. P. de Gagliardino</i>	
Immunohistochemistry of thyroid neoplasms	153
<i>B. Elsner</i>	
Organic contaminants in drinking water: their relationship to goiter	161
<i>E. Gaitán and R. C. Cooksey</i>	
Unusual manifestations of thyrotoxicosis	172
<i>G. Medeiros-Neto</i>	
Treatment of Basedow-Graves' disease with high doses of antithyroid drugs	183
<i>J. H. Romaldini, R. S. Werner, H. F. Rodrigues, L. M. Tanaka, M. C. Werner, C. S. Farah, L. C. F. Reis and N. B. Bromberg</i>	
Clinical and metabolic effects of adrenoceptor blockade by propranolol in hyperthyroidism	194
<i>M. O. M. de Pinho, Y. S. Medeiros, D. Rosenthal, P. Novellino, C. C. P. Francalanci and S. A. M. Franco</i>	
Serum thyroglobulin (Tg) in the diagnosis and follow-up of thyroid diseases	203
<i>R. M. B. Maciel</i>	
Lithium and thyroid function	210
<i>J. L. Cevallos, J. Rojas, M. B. López, M. M. Lucio, V. C. De los Ríos, M. H. Jahn and V. Wallis</i>	
Screening methods for the early detection of neonatal hypothyroidism	220
<i>P. C. Walfish</i>	
Early detection of congenital hypothyroidism (CH) in a selected population of high risk babies	243
<i>L. Gruñeiro de Papendieck</i>	
Free communications	
Inhibitory action of biogenic amines on peroxidase activity in a bovine thyroid subcellular fraction	248
<i>A. M. Masini de Repiso, A. H. Coleoni, M. Andrada and A. C. Montes</i>	
Interaction between nuclear triiodothyronine receptors and glucocorticoids	252
<i>A. R. Recupero, A. H. Coleoni and O. Cherubini</i>	
Comparative effects of triiodothyronine (T ₃) and bovine growth hormone (BGH) on RNA synthesis in brain and liver of radiothyroidectomized rats at birth	256
<i>L. Kratoiec, L. N. Berti, C. Sato</i>	

Effect of age and thyroid function on oxygen consumption in vivo and in vitro in Sprague-Dawley rats	259
<i>A. Alvarado Pisani, J. Núñez, J. L. Cevallos, C. Sánchez</i>	
Effects of histamine on the TSH secretion in the rat. Role of H ₁ and H ₂ receptors	263
<i>E. R. Ulloa, R. J. Boado and A. A. Zaninovich</i>	
Effects of estradiol benzoate (EB) on pituitary-thyroid axis in the rat	265
<i>R. J. Boado, E. R. Ulloa and A. A. Zaninovich</i>	
Relationship of TRH-TSH and iodine prophylaxis on endemic goiter	267
<i>T. Watanabe, O. J. Degrossi, N. Altschuler, M. Pinkas, S. Damilano, C. Santillán and N. Pasquare</i>	
Experimental evidence of lithium goitrogenesis in the Venezuelan Andes	270
<i>J. A. Rojas, J. L. Cevallos, M. López, V. De los Ríos, R. Fraile, V. Wallis, M. Ordóñez, M. C. Salas and J. R. Rojas</i>	
Goiter in a studfarm in Venezuela: preliminary report	273
<i>M. C. Blanco, J. L. Cevallos, J. A. Suárez, O. Gamero, M. López, V. De los Ríos, V. Wallis, M. Ordóñez, M. C. Salas</i>	
Actions of α - and β -adrenergic blockades on the blood sugar, serum immunoreactive insulin and circulating free fatty acid responses to isoproterenol in untreated and thyroxine treated dogs	275
<i>A. Renauld, R. C. Sverdlik and R. R. Rodríguez</i>	
Recent hyperthyroidism, isoproterenol and alpha-blockades	277
<i>A. Renauld, R. C. Sverdlik and R. R. Rodríguez</i>	
Serum iodothyronine variation during propranolol treatment of thyrotoxicosis	280
<i>D. Rosenthal, Y. S. Medeiros, M. O. M. Pinho and C. C. P. Francalanci</i>	
Insulin secretion in hyperthyroidism: effects of propranolol therapy	282
<i>Y. S. Medeiros, D. Rosenthal, M. O. M. Pinho and C. C. P. Francalanci</i>	
T ₄ thyrotoxicosis: an effect of altered T ₄ peripheral conversion?	284
<i>J. G. H. Vieira, E. M. K. Russo, S. A. Dib and R. M. B. Maciel</i>	
Thyrotoxicosis relapse after periods of 23 to 41 years of euthyroidism in patients with Graves' disease	286
<i>M. C. Arqueros, R. Boragina and H. Niepomniszcz</i>	
Thyroid antibodies in Graves' disease: influence of antithyroid drug (ATD) therapy	288
<i>N. Bromberg, J. H. Romaldini, R. S. Werner, H. F. Rodrigues, L. M. Tanaka, M. C. Werner, L. C. F. Reis</i>	
High doses of methimazole in Graves' disease: inhibition of thyroidal responsiveness to TSH	291
<i>R. S. Werner, J. H. Romaldini, N. Bromberg, H. F. Rodrigues, L. M. Tanaka and L. C. F. Reis</i>	
Treatment of Graves' hyperthyroidism with variable dosis of radioiodide, followed by the administration of methimazole and lugol's solution	294
<i>C. M. Libanati and H. Niepomniszcz</i>	

Treatment with methimazole (MMI) in pregnant women with Graves' disease <i>R. J. Lutfi, H. E. Achával, L. M. Contreras, C. A. Almeida and H. Niepomnische</i>	296
Thyroglobuline (Tg), triiodothyronine (T ₃) and thyroxine (T ₄) in response to bovine thyrotropin (bTSH) in treated Graves' disease <i>J. H. Romaldini, R. M. B. Maciel, R. S. Werner, H. F. Rodrigues, N. Bromberg, J. Abucham y C. L. F. Reis</i>	298
Mitochondrial changes in Graves' disease: electron microscopic variations <i>O. Valente, O. A. Mora, I. P. Pacheco, R. M. B. Maciel and A. R. Chacra</i>	301
Evidences of thyrotoxicosis in patients with autonomous functioning thyroid nodules -AFTN- who presented normal levels of iodothyronines and apparent clinical euthyroidism <i>R. Boragina and H. Niepomnische</i>	305
Conversion of thyroxine (T ₄) to triiodothyronine (T ₃) in the perfused liver in hypothyroid and normal rats <i>O. Chino Jr., R. M. B. Maciel, E. M. K. Russo and D. R. Borges</i>	309
Abnormal growth hormone (GH) secretion in primary hypothyroidism (PH) after L-dopa and thyrotropin releasing hormone (TRH) <i>S. A. Dib, L. Matsumura, R. M. B. Maciel and A. R. Chacra</i>	312
Hypothyroidism and galactorrhea; effect of treatment with levothyroxine <i>H. E. Achával, R. Schwartzman y H. Niepomnische</i>	316
Serum enzymes and isoenzymes in primary hypothyroidism (PH) before and after treatment <i>J. R. M. Muñiz, O. Valente, R. M. B. Maciel, D. R. Sustovich and M. P. C. Lima</i>	319
Coupling defect probably due to a thyroglobulin alteration <i>B. E. Gluzman, J. C. Galmarini, M. C. Arqueros, H. P. Curutchet, and H. Niepomnische</i>	323
Discrepancy between plasma TSH and T ₄ levels in hypothyroid patients: our experience <i>S. B. de Boronat and M. Roubicek</i>	326
Thyroiditis incidence in an endemic goiter area <i>R. Katz, C. Moron, B. Córdoba, E. Virgili and G. Giménez</i>	330
T, B and K lymphocytes in peripheral blood and thyroid gland in autoimmune thyroid disease <i>H. Mori, N. Amino, Y. Iwatani, S. Asari, O. Kabutomori, Y. Izumiguchi and K. Miyai</i>	333
Study of pituitary-thyroid axis during course of subacute thyroiditis <i>V. L. Teixeira, H. F. Rodrigues, N. Bromberg, L. M. Tanaka, J. H. Romaldini and L. C. F. Reis</i>	336
Thyroid needle biopsy, clinical-pathological correlation in 853 cases <i>J. L. Cevallos, E. Eichelbaum, L. A. Ayala, G. Colmenares, L. E. Palacios, P. Haiek, M. Camejo, M. Paolillo, C. Urosa, A. Rivero and M. C. Blanco</i>	339

Fine needle aspiration biopsy of thyroid nodules - Correlation with the histopathology of the surgical specimens	342
<i>H. Niepomniszczce, B. Elsner, M. Bellotti, H. Achával and C. M. Libanati</i>	
The impact of fine-needle biopsy (FNB) on the surgical incidence of thyroid cancer	345
<i>P. G. Walfish, C. Wallace, H. T. G. Strawbridge and I. B. Rosen</i>	
Malignant primary histiocytic lymphoma of the thyroid gland: a case report	348
<i>P. León-Guere, T. Torres-Acuña, and V. Figueroa-Díaz</i>	
Thyroid and ovary lymphoma in a pregnant woman	350
<i>P. N. Bollada, L. N. Contreras, H. Botelli, J. Caicedo Sotomayor and H. Niepomniszczce</i>	
Thyroid cancer surgery and the risk of the opposite remnant after 15 years of follow up	352
<i>H. A. Perinetti, L. Staneloni and J. Nacif</i>	
Malignant tumors of the thyroid gland	354
<i>L. N. Staneloni, J. L. Brisoli, J. Nacif-Nora, J. Sánchez Tejada and J. M. Liñán</i>	
Thyroid cancer in children and adolescents	356
<i>S. Iorcansky, T. Pasqualini, L. Gruñeiro de Papendieck and G. Gallo</i>	
Normal variation of serum free thyroxine fraction (FT ₄)	359
<i>S. Damilano, M. Pinkas, T. Watanabe, N. Altschuler and O. J. Degrossi</i>	
Serum T ₃ , rT ₃ , T ₄ , FT ₄ and TSH levels in children with protein-calorie malnutrition (PCM) and during recovery	362
<i>P. J. Canelón, S. Rivas, J. L. Cevallos, V. Wallis, V. De los Ríos, M. López, M. Luco and M. Ordóñez</i>	
Thyroiditis and ultrasound	365
<i>A. Fares Taie, D. Poggi, J. M. Estévez Poggi</i>	
Cryopreserved human thyroid tissue for measuring thyroid stimulating antibody (TSAb)	367
<i>L. M. Tanaka, H. F. Rodrigues, R. S. Werner, C. S. Farah, L. C. F. Reis and J. H. Romaldini</i>	
Yersinia enterocolitica antibodies in thyroid disorders	370
<i>I. Ricciardi, A. Milhomen, M. L. F. Farías, J. G. H. Cordeiro, M. M. Guimaraes and D. Rosenthal</i>	
Thyroid hormones and TSH in diabetic patients. Correlation with the degree of metabolic control	372
<i>J. Libman, P. Tommasino, C. Mindoljevic, N. Vázquez and G. Bessone</i>	
Comparative study of the thyroid gland function of rats and normal human beings subjected to cholesterol enriched diet	374
<i>A. C. Bianco, M. T. Nunes, S. Lewin and C. R. Douglas</i>	

Hypophyseal-thyroid axis function in obesity	377
<i>S. Amaral, M. L. F. Fariás, D. Rosenthal, M. O. Pinho and C. Francalanci</i>	
Urinary iodine/creatinine ratio according to the methods of calculation and their relation to the nutritional status	379
<i>M. C. Pérez Somigliana, J. V. Nordera, C. Morón and S. D'Andrea</i>	

CONTENTS

Preface	11
Plenary lectures	
Thyroid hormone receptors and action	13
<i>L. J. De Groot and H. Nakamura</i>	
Observations in support of the hypothesis that thyroid hormones act at the level of the cellular plasma membranes	33
<i>S. H. Ingbar and J. Segal</i>	
Multiple forms of cyclic nucleotide phosphodiesterases in the thyroid gland	42
<i>C. Erneux, D. Couchie, F. Miot and J. E. Dumont</i>	
Reflections on a visit to Mendoza	54
<i>J. B. Stanbury</i>	
Symposia	
Relationships between structure and biologic activity of the thyroid hormones	60
<i>V. Cody</i>	
Thyroid autoregulation	75
<i>G. J. Juvenal, D. L. Kleiman de Pisarev, G. D. Chazenbalk and M. A. Pisarev</i>	
Changes in the plasma concentrations of TSH and thyroid hormones during childhood and adolescence	79
<i>A. Parra, S. Villalpando, E. Junco, B. Urquieta, S. Alatorre and G. García-Bulnes</i>	
Studies on thyroid function in early puerperium in iodine deficient subjects	88
<i>G. Pineda, C. Ibáñez and J. Tisne</i>	
Disorders of the thyroid gland during pregnancy and in the post-partum period	98
<i>J. H. Mestman</i>	
Inborn errors of thyroid hormonogenesis	110
<i>B. E. Gluzman and H. Niepomniszcze</i>	

Effects of diabetes on pituitary-thyroid axis	123
<i>R. J. Boado, E. R. Ulloa and A. A. Zaninovich</i>	
Thyroid gland and pancreatic function	129
<i>A. Renauld</i>	
Metabolic and ultrastructural effects of hypothyroidism upon endocrine pancreas	139
<i>J. J. Gagliardino, A. M. Cortizo, M. A. Pisarev, G. D. Chazenbalk, C. L. Gómez Dum and E. E. P. de Gagliardino</i>	
Immunohistochemistry of thyroid neoplasms	153
<i>B. Elsner</i>	
Organic contaminants in drinking water: their relationship to goiter	161
<i>E. Gaitán and R. C. Cooksey</i>	
Unusual manifestations of thyrotoxicosis	172
<i>G. Medeiros-Neto</i>	
Treatment of Basedow-Graves' disease with high doses of antithyroid drugs	183
<i>J. H. Romaldini, R. S. Werner, H. F. Rodrigues, L. M. Tanaka, M. C. Werner, C. S. Farah, L. C. F. Reis and N. B. Bromberg</i>	
Clinical and metabolic effects of adrenoceptor blockade by propranolol in hyperthyroidism	194
<i>M. O. M. de Pinho, Y. S. Medeiros, D. Rosenthal, P. Novellino, C. C. P. Francalanci and S. A. M. Franco</i>	
Serum thyroglobulin (Tg) in the diagnosis and follow-up of thyroid diseases	203
<i>R. M. B. Maciel</i>	
Lithium and thyroid function	210
<i>J. L. Cevallos, J. Rojas, M. B. López, M. M. Luco, V. C. De los Ríos, M. H. Jahn and V. Wallis</i>	
Screening methods for the early detection of neonatal hypothyroidism	220
<i>P. G. Walfish</i>	
Early detection of congenital hypothyroidism (CH) in a selected population of high risk babies	243
<i>L. Gruñeiro de Papendieck</i>	
Free communications	
Inhibitory action of biogenic amines on peroxidase activity in a bovine thyroid subcellular fraction	248
<i>A. M. Masini de Repiso, A. H. Coleoni, M. Andrada and A. C. Montes</i>	
Interaction between nuclear triiodothyronine receptors and glucocorticoids	252
<i>A. R. Recupero, A. H. Coleoni and O. Cherubini</i>	
Comparative effects of triiodothyronine (T ₃) and bovine growth hormone (BGH) on RNA synthesis in brain and liver of radiothyroidectomized rats at birth	256
<i>L. Krawiec, L. N. Berti, C. Sato</i>	

Effect of age and thyroid function on oxygen consumption in vivo and in vitro in Sprague-Dawley rats	259
<i>A. Alvarado Pisani, J. Núñez, J. L. Cevallos, C. Sánchez</i>	
Effects of histamine on the TSH secretion in the rat. Role of H ₁ and H ₂ receptors	263
<i>E. R. Ulloa, R. J. Boado and A. A. Zaninovich</i>	
Effects of estradiol benzoate (EB) on pituitary-thyroid axis in the rat	265
<i>R. J. Boado, E. R. Ulloa and A. A. Zaninovich</i>	
Relationship of TRH-TSH and iodine prophylaxis on endemic goiter	267
<i>T. Watanabe, O. J. Degrossi, N. Altschuler, M. Pinkas, S. Damilano, C. Santillán and N. Pasquare</i>	
Experimental evidence of lithium goitrogenesis in the Venezuelan Andes	270
<i>J. A. Rojas, J. L. Cevallos, M. López, V. De los Ríos, R. Fraile, V. Wallis, M. Ordóñez, M. C. Salas and J. R. Rojas</i>	
Goiter in a studfarm in Venezuela: preliminary report	273
<i>M. C. Blanco, J. L. Cevallos, J. A. Suárez, O. Gamero, M. López, V. De los Ríos, V. Wallis, M. Ordóñez, M. C. Salas</i>	
Actions of α - and β -adrenergic blockades on the blood sugar, serum immunoreactive insulin and circulating free fatty acid responses to isoproterenol in untreated and thyroxine treated dogs	275
<i>A. Renauld, R. C. Sverdlik and R. R. Rodríguez</i>	
Recent hyperthyroidism, isoproterenol and alpha-blockades	277
<i>A. Renauld, R. C. Sverdlik and R. R. Rodríguez</i>	
Serum iodothyronine variation during propranolol treatment of thyrotoxicosis	280
<i>D. Rosenthal, Y. S. Medeiros, M. O. M. Pinho and C. C. P. Francalanci</i>	
Insulin secretion in hyperthyroidism: effects of propranolol therapy	282
<i>Y. S. Medeiros, D. Rosenthal, M. O. M. Pinho and C. C. P. Francalanci</i>	
T ₄ thyrotoxicosis: an effect of altered T ₄ peripheral conversion?	284
<i>J. G. H. Vieira, E. M. K. Russo, S. A. Dib and R. M. B. Maciel</i>	
Thyrotoxicosis relapse after periods of 23 to 41 years of euthyroidism in patients with Graves' disease	286
<i>M. C. Arqueros, R. Boragina and H. Niepomniszcze</i>	
Thyroid antibodies in Graves' disease: influence of antithyroid drug (ATD) therapy	288
<i>N. Bromberg, J. H. Romaldini, R. S. Werner, H. F. Rodrigues, L. M. Tanaka, M. C. Werner, L. C. F. Reis</i>	
High doses of methimazole in Graves' disease: inhibition of thyroidal responsiveness to TSH	291
<i>R. S. Werner, J. H. Romaldini, N. Bromberg, H. F. Rodrigues, L. M. Tanaka and L. C. F. Reis</i>	
Treatment of Graves' hyperthyroidism with variable dosis of radioiodide, followed by the administration of methimazole and lugol's solution	294
<i>C. M. Libanati and H. Niepomniszcze</i>	

Treatment with methimazole (MMI) in pregnant women with Graves' disease <i>R. J. Lutfi, H. E. Achával, L. M. Contreras, C. A. Almeida and H. Niepomniszcze</i>	296
Thyroglobuline (Tg), triiodothyronine (T ₃) and thyroxine (T ₄) in response to bovine thyrotropin (bTSH) in treated Graves' disease <i>J. H. Romaldini, R. M. B. Maciel, R. S. Werner, H. F. Rodrigues, N. Bromberg, J. Abucham y C. L. F. Reis</i>	298
Mitochondrial changes in Graves' disease: electron microscopic variations <i>O. Valente, O. A. Mora, I. P. Pacheco, R. M. B. Maciel and A. R. Chacra</i>	301
Evidences of thyrotoxicosis in patients with autonomous functioning thyroid nodules -AFTN- who presented normal levels of iodothyronines and apparent clinical euthyroidism <i>R. Boragina and H. Niepomniszcze</i>	305
